

Hot-Wire Liquid Water Sensor (LWC - 100)

- Measures liquid water content (LWC) in 0 – 3 g/m³ range.
- Optional PADS software provides powerful data-acquisition tools to display, record and play back data.
- Interchangeable circuit card sensor.
- Pulse width modulation power control.
- 2.5-inch diameter B.C. Rosemount pattern mounting.
- 25 Hz frequency response.
- Signal output 0-10 V.
- System power: 28 VDC, 7.5 A max.
- Anti-ice power: 28 VDC, 8.0 A.
- Weight: electronics box 400 g, sensing head 550 g.
- System includes sensing head, electronics box, inter-connect cable, and one-year warranty.
